GS-FS40 Flip Station

FLIP Station

The Gateway FLIP STATION module has been designed to flip large mattress units, especially latex type of 2.2. x 2.2 metres.

The FLIP STATION links our mattress making and handling machines to form a complete Gateway production system and can be used in a variety of applications.

Long term reliability is built-in to ensure the productivity of our mattress manufacturing systems. The frame and rollers are made from rugged heavy-duty steel and components are all top quality brands.

The FLIP STATION is an efficient, reliable, high speed mattress production tool produced and supported by the specialist skills and experience of the entire Gateway team.
