GS-VBM Ultima

GSVBM ULTIMA

The **GS VBM-ULTIMA** is a high speed vertical border machine second to none.

With an output of up to 11 meters per min on its "V" stitch mode and 2.5meters per min on a castellation pattern of 200mm x 50mm it has the highest output of any machine of its type.

Fully programmable to vary castle pattern length, width and pattern repeats also make it the most versatile on the market.

The ULTIMA comes with the following standard specifications and features:-

- Maximum material width 300mm
- Minimum material width 120mm
- Material run out stops
- Thread break detectors
- Large capacity rewind (1meter diameter)
- Hemming folder

Power, 380volts 3 phase 50 hertz (other options available)
