Gateway
SYSTEMS

MM201-P

Mattress Master

The **Mattress Master 201-P**

by Gateway Systems is the latest generation in the Mattress Master series of tape edging machines. Incorporating, exclusively to GSG, the heavy duty Pfaff 5625 sewing head the 201-P continues to set a precedent in quality tape edge machines world-wide.

- Ideal for large or small manufacturing operations.
- Provides high output with minimum training time.
- Easily produces 130-150 mattresses per shift dependent on product range.
- May be used as a stand-alone or as an integral component of Gateway Systems custom designed conveyor system.
- Ergonomic automatic turning device to reduce operator fatigue.
- Has been awarded the Medical Advisors approval for ergonomic operator positioning.
