GSF-1000 Flange Machine

Gateway **Flange Machines** are the standard in the industry. The **GSF-1000**, a high-speed, all-purpose flanger, out produces all others by 50%.

All Gateway **Flange Machines** feature our patented Walking Foot feed mechanism.

Panel thickness = 10mm - 100mm

Stitch thickness = 6.25mm

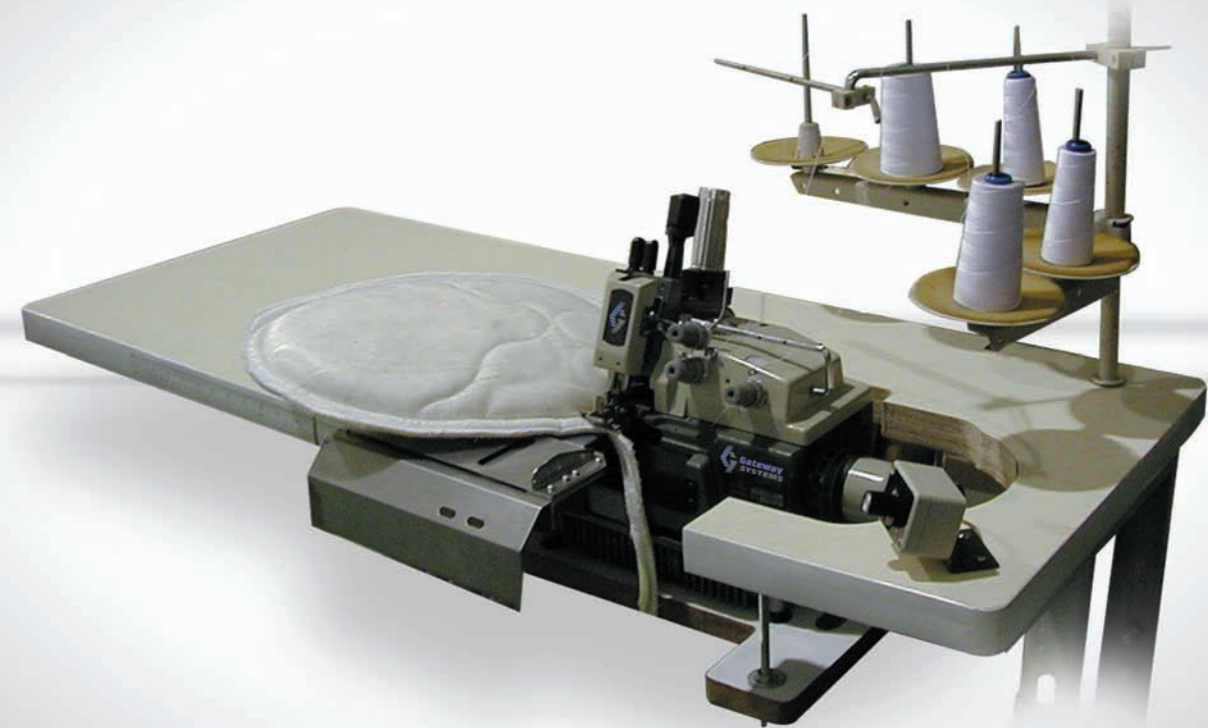

Presser foot height = 11mm

Looper height = 16mm

Seam width = 19mm

Speed = 3200rpm

Foot print = 1200mm x 600mm

GSH-400 Handle Tacker

Gateway's **Handle Tacker** attaches high quality cloth handles with considerable savings over manual methods.

Handles can be attached to the border vertically or horizontally depending on what's required.

Material thickness = 10mm

Handle size = 40mm x 40mm

Stitch length = < 10mm

Speed = 2200rpm

Foot print = 1200mm x 600mm

GSQ-30 *Quilt Repair*

Gateway's **Quilt Repair** provides high foot-lift with long arm convenience, enabling it to handle a wide variety of panel types, together with the hopping foot it is able to follow complex quilt patterns.

Arm length = 760mm

Stitch type = Straight

Material capacity = up to 101.6mm

Needle height = 19.5mm

Presser foot height = 13mm

Speed = 2000rpm

Foot print = 1500mm x 762mm

GSL-107 Label Sewer

Gateway's **Label Sewer** makes it easy to achieve the premium look of sewn-on labels. The 700mm arm allows easy handling of large panels and includes a puller with electronic motor to assist in sewing thick panels.

Arm length = 760mm

Stitch type = Zigzag / Straight

Material capacity = up to 101.6mm

Needle height = 20mm

Presser foot height = 20mm

Speed = 1500rpm

Foot print = 1500mm x 760mm
